Record-Breaking Participation in 2025 Amateur Radio Exam in Bangladesh

A heartfelt thanks goes to the Bangladesh Telecommunication Regulatory Commission (BTRC) for their outstanding efforts in organizing the 2025 Amateur Radio Exam. Their dedication and meticulous planning ensured a smooth and successful event, setting a new standard for future examinations.

Bangladesh Telecommunication Regulatory Commission (BTRC) hosted the 2025 Amateur Radio exam on May 9, 2025, marking a significant milestone in the country's amateur radio community.

This year's exam witnessed an unprecedented turnout, with more than 900 candidates participating. This remarkable figure represents the highest number of participants ever recorded for an amateur radio exam in Bangladesh's history. This surge in interest reflects a growing enthusiasm and recognition of amateur radio as a valuable hobby and communication tool.

Nationwide Engagement and Enthusiasm

This year's remarkable participation highlights the growing interest and engagement in amateur radio activities throughout the country. Participants hailed from various districts, reflecting a nationwide enthusiasm for exploring the opportunities and skills offered by amateur radio.

Role of Amateur Radio Society Bangladesh (ARSB)

Contributing significantly to this surge in interest, the Amateur Radio Society Bangladesh (ARSB) has played an instrumental role in promoting amateur radio activities. The ARSB organized a series of free seminars, workshops, and offline events throughout the country leading up to the exam. These initiatives were designed to educate and inspire aspiring amateur radio operators, providing them with valuable knowledge and hands-on experience in the field.

Workshops and Seminars

- Educational Seminars: Focused on introducing the basics of amateur radio, covering topics like radio wave propagation, equipment handling, and communication protocols.
- Hands-on Workshops: Provided practical experience in setting up radio stations, operating equipment, and troubleshooting common issues.
- Community Events: Aimed at building a network of amateur radio enthusiasts and fostering a sense of community among participants.
