Amateur Radio Outdoor Camp - January 4, 2025

Amateur Radio Outdoor Camp of the year took place on January 4, 2025, just 20 kilometers from Dhaka city. This event brought together over 15 enthusiastic participants who shared a passion for amateur radio operations. The camp was filled with learning, camaraderie, and exciting radio activities.

We were honored to have Muneem Rana, known by his call sign S21R, as our special guest. Mr. Rana is a well-respected figure in the amateur radio community and brought a wealth of knowledge to the event. His presence was not only inspirational but also educational for all attendees.

Participants engaged in numerous QSOs (contact sessions) with fellow operators throughout the camp. These interactions allowed members to practice their skills, exchange information, and expand their amateur radio networks. The QSOs were a highlight of the event, offering practical experience in a supportive environment.

The outdoor camp was not only a platform for learning but also an opportunity for participants to enjoy the natural surroundings, fostering a sense of community. Key highlights included:

- **Interactive Sessions:** Engaging workshops and hands-on activities that allowed participants to apply what they learned.
- **Networking Opportunities:** Attendees had the chance to connect with other amateur radio enthusiasts and establish lasting friendships.
- **Cultural Exchange:** Sharing of experiences and knowledge from diverse backgrounds, enriching the collective understanding of amateur radio.

outdoor camp concluded with a delightful barbecue party, providing the perfect ending to an enriching event. The participants, including amateur radio operators with call signs S21R, S21ARK, S21BK, S21RED, S21CAN, S21OD, S21FIA, S21BP, S21HD, S21KV, S21NZ, S21TQ, S21DI, gathered around to enjoy a warm meal together under the cool evening sky. With temperatures at the campsite dipping to an invigorating 13 degrees Celsius, the atmosphere was both cozy and exciting.

Thank you to everyone who joined us and contributed to the vibrant spirit of the camp. We look forward to more gatherings that bring the amateur radio community together, fostering camaraderie and continuous learning.
