to All**

EW4All Pillar 3 workshop on National Emergency Telecommunication Plan (NETP) and Cell Broadcast Early Warning System (CB EWS)  
Dhaka, Bangladesh

On June 18, 2025, an essential workshop titled EW4All Pillar 3 was organized by the International Telecommunication Union (ITU) in collaboration with the Bangladesh Telecommunication Regulatory Commission (BTRC). This significant event was held at the BTRC Bhabon in Dhaka, focusing on two crucial topics: the development of a National Emergency Telecommunication Plan (NETP) and the implementation of a Cell Broadcast Early Warning System (CB EWS).

Amateur Radio Society Bangladesh (ARSB) Vice President Nazrul Islam & ITU Expert Juan M. Roldan

ARSB was officially invited to participate in the workshop, reflecting the important role amateur radio operators play in emergency telecommunications. Their involvement is crucial for ensuring robust communication networks during crises.
